

About Arthur Jasinki

I have over 20 years' experience in the financial services industry. Previously having worked over 10 years as a financial adviser with Morgan Stanley, Solomon Smith Barney, and Citigroup. I have also worked in various banking roles for National Australia Bank and ANZ.

Specifically, as a licensed Finance Broker, previously working for Echoice Home Loans, Australian Finance Group (AFG) before starting my own business, Wide Finance Solutions in 2018.

Throughout my professional career, I have spent considerable time helping individuals and small business clients achieve their financial goals. I am passionate and very committed. I consider myself as your independent finance manager/personal banker. I do not work for any individual financial institution. I specialize in residential and commercial lending. My main goal is to find my clients the best possible solution (mortgage, asset finance, personal finance) through an efficient, professional and personalized service.

I love travelling overseas, 4WD driving and spending time with my wife and raising 2 kids. I'm an all-around sports fan with a love for Carlton and Arsenal FC and managing a junior soccer team.
